1. Qualitative Information for Quarterly Financial Results for the Period Under Review

(1) Explanation on Business Results

The Japanese economy during the nine months ended June 30, 2020, was influenced significantly by stagnation in economic activity and a deterioration in consumer spending caused by the spread of novel coronavirus infections, amid the lingering impact of a reactionary decline in demand after a surge by a buying rush prior to the hike of the consumption tax rate.

With the end of the pandemic not in sight globally either, the outlook for the economy in Japan and overseas remains uncertain.

In such a market environment, sales in the mail order channel, which is key to net sales, were not significantly affected for the nine months ended June 30, 2020, although there remained the impact of a reactionary fall in demand after sales were moved up from the current fiscal year to the previous fiscal year, resulting from the rise of the consumption tax rate, and some direct store/wholesale channels and overseas channels were impacted by the coronavirus pandemic.

In Mail Order, net sales recorded a year-on-year increase due to measures taken to cultivate new customers in domestic EC sales and active investment in advertising on external online malls in addition to solid trends in sales of seasonal products that can be applied along with All-in-One Gel, targeted at customers already using the Perfect One All-in-One Gel series.

In Direct Store/Wholesale, net sales decreased from the same period of the previous year due to temporary shutdown of stores and a decrease in customer traffic because of self-restraint on outings caused by the novel coronavirus pandemic, despite continued efforts to increase the number of stores, mainly variety shops and GMS (*1), that handle our products and to expand spaces for our products in sales floors.

In Overseas, although sales were trending upward in China, in particular, during the three months ended December 31, 2019, a portion of sales activities was affected by suspension of domestic distribution in China and delays in exports to China during the six months ended March 31, 2020, resulting from the spread of novel coronavirus infections. Nonetheless, net sales grew on a year-on-year basis due to growth in overseas EC sales.

As a result, net sales were 25,573 million yen (up 0.8% year-on-year), operating profit was 2,552 million yen (down 1.6% year-on-year), ordinary profit was 2,549 million yen (up 0.1% year-on-year) and profit was 1,593 million yen (up 1.2% year-on-year).

The Company's business segments consist of Mail Order, Direct Store Sales/Wholesale, and Overseas Sales of cosmetics and merchandise related to health care. As the ratio of Direct Store Sales/Wholesale and Overseas Sales to overall sales is insignificant, and their materiality as disclosed information is low, description by business segment has been omitted.

*1: GMS stands for General Merchandise Store (general supermarket)

(2) Explanation on Financial Position

Total assets as of June 30, 2020 were 18,156 million yen, a decrease of 419 million yen from the end of the previous fiscal year. The main factors for the decrease were a decrease of 221 million yen in cash and deposits, a decrease of 183 million yen in accounts receivable-trade, and an increase of 93 million yen in merchandise.

Liabilities were 4,438 million yen, a decrease of 1,378 million from the end of the previous fiscal year. This was mainly due to a decrease of 595 million yen in accounts payable-other and a decrease of 462 million yen in income taxes payable.

Net assets were 13,717 million yen, an increase of 958 million yen from the end of the previous fiscal year. This was mainly attributable to the posting of profit of 1,593 million yen, a decrease of 378 million yen by the payment of dividends, and a decrease of 299 million yen by the purchase of treasury shares.

(3) Explanation on Financial Results Forecast and Other Forward-Looking Information Forecast

No revision has been made to the financial results forecast for the fiscal year ending September 30, 2020, released in "Non-Consolidated Financial Results for the Fiscal Year Ended September 30, 2019" dated November 8, 2019.

Financial results and other forward-looking statements herein are based on information available to the Company and certain assumptions deemed reasonable at the date of publication of this document. Actual results, etc. may differ significantly from these forecasts due to various factors.
